About This Content

It's 1944, and after several years of war the Allies have finally gained the upper hand. More than a million troops prepare in England for the largest amphibious invasion in history: Operation Overlord.

The plan is to land on several beaches in northern France, and then to push east and finally put an end to the war.The coast is heavily fortified, and the Allied High Command is certain that Germany will fight bitterly and will make the Allies pay dearly for any progress. The path to Berlin will be hard and bloody, but the end to the most devastating conflict in history is at hand.

The third instalment of a mega campaign covering the entire African and European campaigns of the United States. Carry over your troops from US Corps '42 and US Corps '43!

Looks great on a big monitor.. needs campaign mode soon. Good game but does anyone know how to disable the blood?. not fun game. A brilliantly simple game.

You need to give it a chance, because it starts out a little slow, but does develop really nicely.. Others try ! I succeed... This DLC contains the Musketeer's hat (30% damage reduction), the Rapier (around 2500 DPS) and the Nightgale pet :

- Sprint speed + 25%

- Distance infected detected + 2000m

- Health bonus + 100%

- Weight bonus 30A frenchie DLC for baguette lovers.. chesslike
  -nobody is online
  -no proper tuts. Fantastic, but short lived space dog fighting game. Pro's:
   + *Looks somewhat decent on the lowest video settings.*
   + *Plays smoothly.*
   + *Haven't countered a cheater.*
   + *Fully customizable characters.*
   + *Get a crap load of gold from just playing the game.*
   + *Winning a game is usually easy.*
   + *Instant builds.*

   Cons:
   - *Forced to play against mobile players who have aim assistance which literally locks onto you even if you're not in their sight. They can also hit you through walls which totally is balanced.*
   - *100 ping servers just in case the mobile players weren't enough.*
   - *The "Halloween" event was probably the worse even i've seen in a game. The only two things I got from the tokens was 6 crates, 4 gave me 500 gold while the other 2 gave me a Halloween glider that only lasts 2 days. Don't bother grinding them.*
   - *Winning feels like nutting while depressed at the same time. It doesn't feel rewarding at all.* . Really good game similarities for example to Meatboy. Keeps you on the hook from beginning to end :D

Extremely well polished.

From the graphics, to the music, to the power ups and achievements it truly feels like you are stuck inside an arcade game. There is voice acting, a small 'plot', well done tutorials, and three games to choose from which helps keep you from getting bored.

Thus far it has been a blast. It shows off the Vive system fabulously and really feels like a AAA game. I highly recommend getting it if you are a fan of the old classic arcade game feel, albeit with a modern twist.. Pretty fun but the game its dead.. Loyalty and Blood: Viktor Origins is a fantastic platform shooter with good castlevania-esque music in the background. This game is a refreshing breath of air from the giant pile of garbage pixel games on steam. Support these developers and buy this game.. I have a dungeon.
I have a Tetris.
Uh!
Dungetris.. It's more of the first game basically. There are some new guns which are pretty awesome, and some new enemies. The gameplay is exactly the same formula as the first one and it works. Until we get a real Halo game on the pc, this will have to do. The graphics are great, colorful but not too colorful, and help make the levels a lot of fun. The story is whatever who cares. It's not like anyone doesn't know what Halo is already. A pretty good game and has plenty enough content to justify its $7 price. Especially since when you finish the game you can go back and gold star previous missions and when you get them all it unlocks a whole new scenario which is pretty cool.

8/10 overall.. Well presented and interesting, without unneccessary sensationalist rubbish that so often blights documentaries of this type.

Highly reccomended.
